CAREER OBJECTIVE

Graduate of computer science with experience working with web technologies. Earnestly desiring a role where I can grow and learn from experienced team members while drawing on project experience I have successfully executed.

WORK EXPERIENCE

SACULIET ENT NIG

Developed a portal for the Driving School Arm of the company, for organizations to verify the certificates of the students of the driving school. Key features includes:

- A page for organizations to submit student verification requests
- Email verification
- A dashboard for the school to manage requests, student and organizations
- Emails to notify the school of a request submission, inform organizations when the requests is granted and to inform students when their certificate is verified by an organization

Designed a landing page and a page for gallery which displays images and pictures of the driving school

CHRIST LIBERTY ASSEMBLY

Developed a website for the church, Christ Liberty Assembly containing key sections such as:

- A page for displaying sermons and a gallery page that displays images of the church.
- A page to display articles and a page for each article. The link to each article can be shared on Facebook, WhatsApp or the copied to clipboard.
- A search functionality to filter out articles by title and sermons by title or preacher.

SOCIAL MEDIA WEBSITE

- Developed a custom social media website for my school, which includes basic features like posts, likes, comments, updates, updating of password and profile picture.
- Included a page where the final year student can upload a copy of their projects, which can be downloaded by the other students.
